

# 1st CONFERENCE BEYOND FOSSIL FUELS

 SANTA MARTA, COLOMBIA

 APRIL 24 - 29, 2026

Faced with the advancing climate crisis, Santa Marta is becoming a global epicenter of the energy transition. For the first time in history, national governments, businesses, academia, social organizations, and individuals interested in finding a gradual way out of fossil fuels, the main cause of greenhouse gas (GHG) emissions, are coming together.

<https://transitionawayconference.com/>

Our struggle and interest in uniting and coordinating efforts to defend life has led to our selection to participate in the pre-assembly of the 1st Beyond Fossil Fuels Conference.

## WHO?

CreAcción, PROSEDER, CosmoSer, FMA, Sembradores Van der Hammen y Viva la Ciudadanía

## PRESENT

### RESTAURACIÓN CICLISTICA PARTICIPATIVA – RCP / PARTICIPATORY CYCLING RESTORATION

BICYCLE TOURISM

ECOLOGICAL  
RESTORATION

PARTICIPATORY  
ENVIRONMENTAL  
MONITORING

COMMUNITY  
ENGAGEMENT

This strategy allows for the revitalization of mind and body, the planting of native tree and food species through active and passive restoration processes in areas degraded by industrial activities and in exceptionally natural areas, and the environmental monitoring of natural elements (water, air, soil, noise). This monitoring provides pollution data and allows for the development of a local and approximate solution strategy that brings together citizens, the public and private sectors, academia, and international cooperation.

 With this strategy, we address the triple planetary crisis of climate change, biodiversity loss, and pollution.
